Other suggestions.

Instructor Feedback:

As an auditing student, I would like to express my appreciation to Mr. Gary Palmer for his support on my case writing improvement. As a SCMP candidate, it's my fortunate to meet an instructor like Gary who is very straightforward when giving suggestions to a junior's work like myself. In life, I appreciate those instructors who are authentic, honest and sincere when coaching their students during their teaching career. Definitely, Mr. Gary Palmers is among one of those that I'd like to speak highly about. I'm glad to inform SCMA that we should have SCMA instructors like Mr. Gary Palmer: Honesty, authenticity and sincerity are the qualities that SCMA instructors should have, and Gary definitely possess all of these precious qualities.

Last but not least, a big thank-you to Gary for his honesty to all his students and dedication to his teaching career!
